

## BAIL IS \$1,000.00

Will Run no Chances of Pick-pocket's Escape

### MANY VICTIMIZED

Chicago man Nearly Lost \$1,000—  
Bert Turnbull was Touched  
to the Tune of \$40.00

Of the four alleged pickpockets who were arrested Saturday, the police had evidence that warranted their holding only one, and he was bound over to the circuit court by Justice Doty this morning. He gave the name of John Collins, and said that his address was 55 Lakeview avenue, Chicago.

An emerald pin, which was identified by C. C. Crabb of Chicago, was found in Collins' possession. Crabb returned to Chicago last Saturday night, and agreed to be on hand for trial, when he will be given his property.

Collins' friends called yesterday afternoon at the residence of Justice Doty and tried to have the man released from custody on his own recognizance.

"That is impossible," answered the justice. "He is a stranger and we have no assurance that he will be on hand when he is wanted."

"We will give cash bail," answered one of the party, "and we will ask no questions."

With that the man produced a roll of bills big enough to serve for a foot ball, almost, and offered it to Justice Doty.

"That won't go with me," returned the justice and the party after considerable more parlying took their departure.

"I don't suppose they would have asked questions if I had taken the money," said the justice this morning. "They would undoubtedly have been entirely satisfied to get their man away for whatever sum the roll represented. We don't do business that way in Ann Arbor."

Collins waived examination this morning, but objected strenuously when the justice fixed his bail at \$1,000, "with sufficient sureties." "Remember, sufficient sureties," repeated the justice.

If Collins can not get reputable citizens to go on his bond he will have to stay in jail until the December next term of court. His friends are very anxious to secure his liberation, and if they can possibly furnish acceptable sureties they will do so.

Pickpockets reaped a rich harvest among the football enthusiasts Saturday. There was a tremendous crush at the railroad depots on the conclusion of the game, and after the crowd had boarded their respective trains and the conductors came around for the tickets there was general consternation. Dozens of persons found that they had been relieved of pocket-books, jewelry and articles of value such as furs, umbrellas, etc. Many of the victims had neither their return tickets nor the money to pay the fare, and the conductors were besieged with piteous appeals not to put them off the train. The difficulty was in every case patched up in some way, and all the losers were carried back to their homes.

L. L. Roberts, a Chicago man, narrowly escaped achieving the distinction of being the heaviest loser of the day. When the two of the alleged grafters were arrested at the Cook House, a pocketbook was dropped on the floor in the confusion. It was carried to the desk, where it was found to contain \$1,000, and some valuable papers. The name on the papers was Roberts, and the owner was located and given an opportunity to identify his property. He did so, and it was turned over to him. He knew nothing of his loss until the clerk asked him if his pockets had been picked.

Bert Turnbull of Chelsea felt a hand in his pocket while he was trying to board a train at the Michigan Central station, and reaching for his pocketbook found that it was gone. He gave chase after two men whom he thought were the guilty parties and two of officers joined in the sprint and the pair were placed under arrest. They did not have the pocketbook and were later released. Turnbull's loss is \$40.

## STILL MORE SMALLPOX

Four Cases Reported Among  
Engineering Students

### STUDENT AT DINNER

When Health Officer Cooley Pronounced Him a Small-pox Patient

Four more cases of smallpox have made their appearance among the students of the university engineering department since Saturday. One of the patients was at his boarding house last night when the health officer pronounced smallpox. The young man's name had been given to the health officer as a possible patient. When Dr. Cooley found him at the boarding house the rash was very apparent.

Judge Kinne has ordered that stores 35, 37 and 39 on Huron and Pearl street, Ypsilanti, be held to satisfy the mortgages and notes due Eunice Lambie. They are owned by Jabez Wortley, of Ypsilanti, and Marie Wortley, Samuel Heavensich, Jonathan Wortley and the Ypsilanti Savings bank and the First National bank were made defendants with Wortley. The amount of the debt is \$12,187.16 and Wortley is to have until November 24 to settle up.

## INAUGURAL DINNER COMPLETE SUCCESS

The inaugural dinner of the University of Michigan Union was held at Waterman gymnasium and was a complete success. Every one of the 1,000 tickets had been sold, and there was not a vacant place at the long tables. The banquet was all that could be wished from a gastronomic point of view, the speeches were excellent and the spirit of the gathering was of earnest and intense loyalty to the university. The way in which the enterprise was taken hold of by the student body assured the union of a healthy, active existence and makes more than probable all the enthusiastic prophecies that were made by Friday night's speakers.

From 7 o'clock to 7:45 o'clock the guests were received in Barbour gymnasium by the speakers, headed by President Angell. At 7:45 the doors into Waterman gymnasium were opened, and the party filed in the banquet hall and gathered about the long tables.

Owing to a delay in serving dinner, Congressman Townsend delivered his address, "Michigan in Congress," before the banquet. After speaking of the many Michigan alumni who are at

Washington in the interests of their people, he spoke briefly of the Union and its prospects.

After the menu had been served the program of speeches was continued. Regent Barbour spoke of the future of the union and of the important part it may be made to play in the life of the university.

Prof. M. D. D'Ooge paid a high tribute to the alumni who took part in the civil war and strongly advocated the combining of the Michigan union movement with the Alumni association building project.

President Angell was greeted with the U. of M. yell and prolonged cheering. He said in part:

"I consider this meeting a unique one. Old men are inquiring 'what does all this mean?' Students conceived this mighty movement, and it will be carried on by them. The boys are homesick. They have no place to go at odd hours to chat and talk. They are obliged to listen only to others in University hall. Some ask about fraternities. Their members are isolated. At Pennsylvania and Harvard dormitories are the same, but these do not meet the needs. I hope some wealthy man will take the matter in hand, and with the help of alumni carry it to success."

He greeted the alumni in his characteristic fashion and said that he hoped the annual gathering would be perpetuated. He praised, in no unqualified terms, the enterprise which has made this dinner possible, saying that it reflected great credit on Michigan.

The complete program follows:

Regent Levi L. Barbour.  
The Glee Club.  
Hon. John E. McKeighan.  
The U. of M. Band.  
Hon. Charles E. Townsend.  
Mr. Edward C. Hinman.  
Violin Solo by Roy Williams.  
Mr. Lawrence C. Hull.  
Mr. Richard Hardy.  
Dean Victor C. Vaughan.  
Professor Martin L. D'Ooge.  
The Glee Club.  
Professor Robert M. Went.  
Judge Harry A. Lockwood.  
The Glee and Mandolin Clubs.  
Dr. Flemming Carrow.  
Mr. Hugo Sonnenschein.  
Mr. Neil W. Snow.  
Mr. D. Bethune D. Blain.  
Mr. Edward F. Parker.

The hall decorations were very striking, the principal item being an immense number of Michigan banners. At one end was a large maize and blue streamer bearing the words: "University of Michigan," and at the other was an American flag. Vases of yellow chrysanthemums were placed at intervals along the tables.

### As Actuaries Measure Life

Actuaries employed by insurance companies adopt a standard method of computing prospective ages of risks. To ascertain how many years a person of given age is ordinarily expected to live the present age is deducted from eighty, and two-thirds of the remainder will indicate the future span of life. Actuarial schedules are a unit in this system of calculation. In illustration of the above statement, age twenty deducted from eighty years shows that forty twelvemonths are the allotment, while age sixty from eighty, leaving balance of twenty, represents that thirteen years and three months should in favorable routine, elapse before the insured individual's life is classified in the post tense column. Thus it will be observed that insurance corporations go the Biblical allowance of "three score and ten" ten years better.

## IT WAS A GOOD HAUL

Some Thief Stole Smallpox  
Infected Overcoat

### FROM HEALTH OFFICER

Garment Had Been Left Hanging  
on Clothes Line in the  
Back Yard

Stolen—last night, one smallpox infected coat. Thief had better be vaccinated.

The above is a notice that Health Officer Cooley gave to the Argus this morning. It is founded on fact, too, as the guilty party will undoubtedly be aware in about two weeks. The case will in the natural order of events be reported to the health officer, and while the chances are against his being able to identify the patient as the despoiler of his coat, yet it is not beyond possibility that his Sherlock Holmes instinct will rise to the occasion and enable him to spot Mr. Thief as soon as he enters the house.

Therefore, smallpox patients are asked to refrain from asking indecate questions if the health officer glances curiously about the sick-room when the makes a professional call. Also, if the doctor's coat chances to be still in the sick person's possession, common caution suggests that it be safely stowed out of sight.

Dr. Cooley says that he doesn't care about the loss of the coat, but thinks that it will be rubbing it in a little if the thief comes down with smallpox and makes it necessary for him to attend him professionally.

Dr. Cooley lives at 521 Forest avenue, and says that if the stolen garment is left in the yard tonight he will be more kindly disposed to the thief if he is later called upon to treat him professionally.

## THE MICHIGAN CALENDAR

The Michigan Calendar is out for champions of the west for four years, that is Coach Yost and his men. The calendar was designed by J. B. Hill, of Detroit and published by James Foster of the University art store. The calendar is strictly U. of M. decorated in yellow and blue, with the portraits of the team. Coach Yost, Manager Baird, Student Manager Montgomery, Trainer Fitzpatrick, President Angell and Dean Hutchins. Below the picture of a football is written:

"Michigan with three years of Yost—1759 to 18. In 1901 the team secured 550 points to none for its opponents. In 1902 a total of 644 points to her opponents' 12. In 1903 Michigan piled up 565 points to her opponents' 6. Grand total, 1,1759 to 18."

## TRAVELING MAN LOSES OVERCOAT

Sneak thieves went into Leo Gruner's house last evening while the family and several visitors were enjoying a little music, and they appropriated an overcoat belonging to Edward L. Locher, of Kalamazoo. There were a number of coats and wraps in the hall, but Locher's was the only one taken.

Locher is a traveling man and could not go back home for another coat, so had to make a purchase of a new garment this morning.

MONDAY, NOVEMBER 13, 1904.

The sneak thief who stole Dr. Coolcy's overcoat which he wears when visiting smallpox patients will suffer a bit of poetic justice should he take smallpox.

The coroner's office in Wayne county appears to have been filled by thrifty officials. But this is generally the case in all offices, the compensation of whose occupants is obtained through fees. Some officials are worse than others but it is entirely safe to say that the public conscience is decidedly easy in all such matters and grafts are to be found in most public offices whose occupants are thus paid. The system is entirely wrong and places a premium on grafting. All such positions should have a salary attached and all fees collected should be turned into the public treasury. This plan would remove much of the temptation to be dishonest on the part of the public officials and is the only way to correct this species of graft.

**THREE SIGNIFICANT FACTS.**  
In any but a presidential year, the vote which was cast on November eight would have elected Mr. Ferris to the governorship. The tremendous popularity of President Roosevelt was the only factor that saved Mr. Warner. In a year he would undoubtedly have been defeated. The vote in opposition to the machine gives evidence of substantial growth in the past two years. If no warning is taken during the two years to come, the opposition to machine rule in all probability be still stronger. And the time is not distant when the opposition will prevail. If the present legislature does not give the people a substantial primary reform law, the next fight will undoubtedly be conducted along the same lines until the people win, for win they certainly intend to on this issue. It is up to Mr. Warner and the solidly republican legislature to give the people what they want or take the consequences. What will they do? We shall see what w shall see.

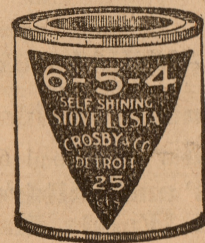

Fred M. Warner, governor elect, has something like 100,000 less votes than President Roosevelt has in Michigan. Such a lesson as this fact contains would not be lost on any but a machine politician. Will it be lost on Fred M. Warner? Time will tell. It is a tremendous rebuke but getting in is just as good to the machine as the largest majority. If Fred M. Warner is wise he will draw the right lesson from this hand writing on the wall. He will not consort with the machine men. He will do all he can to sidetrack the immortals. He will appoint men to the positions he has to fill that the people want. He will not appoint the Atwoods and the Navins. In fact there will be no difficulty in ascertaining whether the lesson of the vote has been learned or lost on the new governor. How many times the people will be disposed to elect republican legislatures and state administrations without securing from them what they want in the way of primary reform remains to be seen, of course, but it is scarcely likely that they will continue it forever.

### BRIEF TELEGRAMS.

There was rioting in Warsaw Sunday, which was suppressed by the troops. Two policemen and eight civilians are reported to have been killed and thirty-one were injured.

Jacob Daniel Hutson, aged 62, for twenty years foreman of the B. & O. railway shops of Chicago, and later of Newark, O., dropped dead while attending devotional services in St. Thomas Catholic church in Zanesville, O., Sunday.

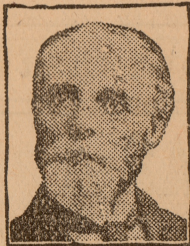

In view of the published statement that Secretary of the Treasury Shaw would make a call on government depositories for a loan of \$20,000,000, it is positively stated in Washington that no such call in the immediate future is contemplated.

The opposition to the compulsory vaccination law led to fierce rioting in Rio Janeiro. The troops repeatedly charged the mob, barricades were erected, water and gas mains were cut, plunging the city into darkness, and street cars were burned. The demonstration had every characteristic of revolution. The president's palace was strongly guarded.

## The Menace In Educational Frills

By WHITELAW REID

WE must insist that the common schools really teach, with a thoroughness not yet so generally attained as is needful, THE THREE THINGS THAT MAKE THE COMMON BASIS FOR ALL SUBSEQUENT WORK. Their pupils should learn till they really know how to read, write and cipher. Until you make absolutely sure of that let us have fewer frills.

You have not taught reading until you have made it at least accurate, automatic and AS UNCONSCIOUS AS BREATHING.

You have not taught writing until you have made it equally easy, equally exact, and besides have taught it without fads. Not only must the characters be legible rather than obscurely elegant, but the words must be spelled as they are NOW spelled in English literature. No doubt there is a place in the scheme of the universe for insatiate reformers, even for spelling reformers, but their place is not in the common school room. The teacher's business there is to teach what the literature of the English speaking world has accepted, NOT WHAT THE REFORMERS THINK IT OUGHT TO ACCEPT or even believe it is going to accept. The teacher's warrant from the state in this very groundwork of all learning is not for teaching debatable things, contentious things, but the things now accepted and built upon and embodied in our standards.

Again, just as nothing can take the place of an absolute readiness in thus reading and writing the English language, so nothing can take the place of an absolute mastery of the multiplication table. The boy or girl to whom the teacher does not give that in childhood, together with the common things it stands for, he is turning out into the world A CRIPPLE FOR LIFE. If he cannot add and subtract, multiply and divide with the readiness and precision of a machine, if this work is not instinctive and instinctively right, he will limp at every step in his whole subsequent career. But here again, I pray, no fads—not even the metric fad. Teach the weights and measures a child will have to use in everyday life today, and teach them thoroughly, but leave the weights and measures he may need half a century hence FOR A LATER PERIOD, if any, in his education.

Let us avoid the common mistake of striving for a foundation too big for the probable superstructure. When the child has mastered reading, it may OR MAY NOT be desirable to carry him on to the best English literature and to the history of its development. When he has MASTERED spelling and writing, it may or may not be desirable to teach him shorthand and the etymologic reasons for different spellings of the same sound. When he has mastered the ordinary processes of ciphering, it is very likely to be UNDESIRABLE to force him to spend years upon the mysteries of double proportion, cube root, complex and compound fractions, permutation, exchange, etc. All these have their place, but it is in an arithmetic which belongs at least to secondary education, if not later still.

THEY ARE NOT A NECESSARY PART OF THE COMMON BASIS WHICH IS INDISPENSABLE FOR ALL SUBSEQUENT TRAINING, AND THEY OFTEN LEAD TO NEEDLESS DISCOURAGEMENT AT A TENDER AGE AND TO A DEPLORABLE WASTE OF TIME AND OPPORTUNITY.

## Negroes Should Be Segregated

By Rev. J. E. KIRBY, President Atlanta (Ga.) Theological Seminary

WE hear constantly that two races can occupy the same territory and mutually sustain themselves. BUT THAT IS NOT THE LESSON OF HISTORY. Three things have happened when races have come together.

If there has been little difference in temperament, color of skin and aspirations, amalgamation has taken place. This is one solution. If one is greatly inferior in civilization and the disparity in color of skin is marked, it has resulted in the destruction of the weaker. The bow and arrow have never been the match of the shotgun. AND THE THIRD SOLUTION IS SEPARATION.

THE CHRISTIAN THING TO DO IS TO SEPARATE THE RACES IF YOU WOULD SAVE THE NEGRO.

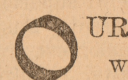

I do not advocate deportation to Africa, but I do think that the masses of the negroes could be segregated in some specified area to the mutual advantage of all concerned. The government of the United States could set apart by purchase an area of territory in the southern and southwestern part of the country to be known as the Negro State. IT SHOULD BE IMPOSSIBLE FOR THE WHITE MAN TO DO BUSINESS WITHIN IT OR EXERCISE THE RIGHTS OF CITIZENSHIP.

There would be no danger of interference from the white man if he could not do business within the state or hold office. The negro would then be given the fullest opportunity OF DEVELOPING HIS RACE LIFE. He could occupy the same relation to the general government as a state. This segregation is not an impossibility. IT IS THE ONLY HOPE FOR THE NEGRO. The present conditions in this country emphasize the fact that the negro can never expect the fullest social and political recognition from the white man.

WE CANNOT GIVE IT AND SAVE OURSELVES.

## The Irish Race Is Dying

By JOHN E. REDMOND, Member of British Parliament

OUR race is slipping from its moorings—IT IS DYING. If we are passive and inactive Ireland will cease to be the home of the Celt. There are more old men and little children and fewer young men and women in that island than IN ANY OTHER COUNTRY on earth.

THE DEATH OF THE RACE CAN ONLY BE WARDED OFF BY ACTING IN THE LIVING PRESENT. WE MUST NOT NEGLECT AN OPPORTUNITY.

## EVER WATCHFUL

A LITTLE CARE WILL SAVE MANY ANN ARBOR READERS FUTURE TROUBLE.

Watch the kidney secretions. See that they have the amber hue of health.

The discharges not excessive or infrequent.

Contain no "brick-dust like" sediment.

Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick.

Mrs. Sarah Gray, of 600 Kingsley street, says: "There was extreme weakness and depressing pains through my loins and also pains in my shoulders, at times running down the muscles of my limbs. I did not rest comfortably nights and at times felt so miserable that I could hardly get around. The kidney secretions became so highly colored, variable and deposited quantities of brick dust sediment. I went to Eberbach & Son's drug store and got Doan's Kidney Pills. They relieved me very promptly, and were a source of great comfort to me. I would not be without them for anything. I used many other remedies, but Doan's Kidney Pills are by far the best of all."

For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

Governor Bagley, greatest 5 cent cigar ever made.

HOWARD & SOLON, Distributors.

Heavy Underwear 35 cents a piece. See Cutting, Reyer & Co.'s window.

TWO SHADES OF CLOTH AND A BRAID TRIMMING.

The use of two tones of cloth in the costume is a late manifestation, and the gown of onion chiffon cloth has strappings of brown and trimmings of velvet buttons and broad braids in a still deeper tint. The coat is long, each seam strapped with the darker cloth, the fronts rolled back and faced with white, and a braided girdle with silk tassels passing around the waist. The skirt has panels with horizontal tabs, through which the braid sashes are passed, the seams piped and strapped with dark cloth, and the train shows the new short, or half length.

## WINTER IN COLORADO.

Your own physician will tell you that the dry mountain air of Colorado as an elixir of life stands pre-eminent. Always rigorous and stimulating, the crisp atmosphere of Colorado is at its best in winter. To accommodate winter tourists to the Rockies, the Union Pacific has put in effect from Chicago a round trip rate of \$39.21, with proportionate reductions from all points within its immediate territory. Tickets on sale every day until June 1, 1905. Be sure your ticket reads over the Union Pacific, the popular route to Colorado. For full information inquire of F. B. Choate, G. A., 128 Woodward avenue, Detroit, Mich.

On November 22 the Wabash will sell homeseeker's excursion tickets at \$20.00 for the round trip from Chicago to all points in Oklahoma and Indian Territories, and many points in Texas, Missouri, Kansas, Arkansas and Louisiana. Write for full particulars. Ticket office 97 Adams street, Chicago, Ill.

Our display of leather couches will convince you that we have the goods for you to select from. A leather couch is a very desirable article, for it is durable and comfortable.

Respectfully,  
MARTIN HALLER,  
112, 114 and 116 Liberty street.

# VERY SUCCESSFUL

is the great sale we put on last week, and while we will continue it until Jan. 1st, it is greatly to your advantage to visit us at your earliest convenience and inspect the largest and finest stock of

## CLOTHING, HATS, CAPS and FURNISHINGS

in the county. As we have already announced our firm will change after the first of the year, and we have made the price of every article in our large stock so low that you can't help but be interested. To make the change we contemplate the stock must be turned into money and we regret space will not permit us to quote you prices that you might see how far a few dollars will go. Nothing is reserved, and if you need a few Xmas presents, now is a splendid time to select them. All outstanding accounts must be settled at once, either by cash or bankable paper

"Allen's for Quality"

## THE WORKINGMAN'S SUIT

A great many men work for a living, and have no money to throw away. These men demand the best that their money can buy and are willing to pay ALL a Suit is worth, but NO MORE.

### THIS IS RIGHT

For these men we have a special line of well and strongly made Suits. Good, stylish Suits made from fabrics that will stand rough usage and still retain a genteel appearance. We do a large business in Workingmen's Suits, Trousers and other Clothing, and we give every man a

### FULL HEAPING MEASURE

of value for the money he leaves with us. Workingmen's Suits at \$10.00 or \$15.00. Money back if anything is unsatisfactory. Prudence and economy sends many a Workingman here for his clothes.

**ALLEN, THE CLOTHIER**  
Main Street . .

#### The File.

The file is mentioned in the book of Samuel. Speaking of the subject Israelites, the writer says, "Yet had they a file for the mattocks, and for the colters, and for the forks, and for the axes, and to sharpen the goads."

#### Cutting Glass.

Glass can be cut with a pair of ordinary shears if glass and shears and hands are all kept under cold water.

#### Hairdressing in Japan.

Japanese women have their hair done every other day by a professional hairdresser. They avoid waves or ripples in the hair, which are considered bad form.

#### Egyptians and Birds.

In their religion the ancient Egyptians gave a prominent place to birds, and in funeral pictures we see the "ba" or soul of the dead hovering in the form of a bird with a human face, over the embalmed body.

#### Vultures in Khartoum.

In Khartoum all vultures are strictly protected by the government, as they are useful in clearing away refuse.

#### Bullets and Pasteboard.

During some firing experiments by the Swedish government the bullets failed to penetrate targets made of pasteboard three inches in thickness, yet they easily passed through planks five inches thick.

#### For the Gums.

Alum and myrrh are both good for the gums.

#### An Ancient Irish Tune.

It is authenticated that the music of the song of "The Blackbird," played at Major Andre's execution, was written by Dr. G. W. Walter, organist of George Washington university. The tune is an ancient Irish one.

#### AUCTION.

The household goods owned by Proprietor, U. M. Spalding will be sold at auction Thursday, November 17, at 1 p. m., at the house, next to the Congregational church on State street, Ann Arbor.

WARREN LEWIS,  
Auctioneer.

U. M. SPALDING, Owner.

Quarter off sale on all ready-to-wear and dress hats this week at Mrs. E. B. Fogarty's.

#### THINGS THEATRICAL.

Miss Pola La Follette, the daughter of Governor La Follette of Wisconsin, who is a member of Ada Rehan's company, has shown great promise at rehearsals, and Miss Rehan has taken a strong liking to the young woman.

Miss Elizabeth Marbury has returned from Europe, bringing with her sixty-two manuscripts of plays by English and French dramatists. She says Marie Corelli is finishing a play which is to be sent her before the holidays.

Richard Mansfield is to have four leading women this season, who are Gertrude Gheen, Julia Marie Taylor, Eleanor Barry and Irene Prager. Mr. Mansfield has planned to revive seven plays and make two new productions.

"The Cingalee," or, as it might be translated, "Sunny Ceylon," a musical comedy which has met with success at Daly's theater, London, is at Daly's theater, New York, with William Norris as leading comedian. It is by many authors.

"The Missourians," a play of central Missouri life by Nain Grute and Wade Mountfort, was given its first New York presentation recently, at the Metropolitan theater. The play abounds in clever lines, quaint humor and unusual situations.

One of Miss Maxine Elliott's most devoted admirers is Sport. Sport is a dog, and he is a full grown, well built and keenly intelligent animal too. Sport stands in the wings and watches every performance of "Her Own Way" with a critical eye.

#### HORSE TALK.

John A. McKerron, 2:04½, is permanently retired. Sphinx, 2:20½, is now a "century sire." Eight new ones makes his total 103.

Little King Direct's new mark is 2:06½. It takes a touch of frost to ripen him.

The new 2:10 pacer Sam Rysdyk, 2:09½, by Royal Rysdyk, 2:28¾, made a record of 2:19½ last season, but the year book gives no details concerning his age or dam.

Racine, Wis., is once more on the horse map. A fine half mile track was finished July 1 and has been used for matinee racing by the local driving club. The track record is 2:26, made by Axle.

The brown gelding Normanroe, by Normaneer, who trotted to a record of 2:24½ at Monongahela City, Pa., is out of Lottie D., by Jim Monroe. Lottie D. is also the granddam of Sidney Pointer, 2:07½, sire of the sensational Angus Pointer, 2:04¾.

The pedigree of Commodore Kittson, sire of John Hussey's Lady May, 2:07½, is very interesting. He is by Revenue, 2:22¼, dam Lady Ralfe, 2:22¼, trotting, 2:23 pacing, by Tom Rolfe, 2:33¾. Revenue, 2:22¼, was by Smuggler, 2:15¼, dam May Morning.

#### THRONE LIGHTS.

Emperor William has set the fashion in Germany of heavy pale blue note paper.

The full name of the little crown prince of Italy is Umberto Nicola Tomaso Giovanni Maria.

The new harness which the khedive of Egypt ordered in England some months ago is the most costly ever made for four horses. It is valued at \$10,000.

The dowager empress of China has given a sum of money for the establishment of an institution for teaching medicine, the management to be confided to the missionaries.

#### Servants in London.

Fully 10,000 domestic servants in London are always out of situations or changing their places.

#### Ingrowing Nails.

If a nail shows an inclination to grow in at the edges cut a little notch in the middle of it. The tendency then will be to grow toward the notch and fill it up. This draws the nail away from the skin at the sides.

#### Roads in France.

France has four classes of roads. They are respectively fifty, forty, thirty-three and twenty-five feet wide.

### ANN ARBOR LOCALS.

Miss Frances Caspi has started a  
class in vocal music in Dexter.

The U. of M. School of Music Rec-  
ord is now in the press and the first  
number will be out in about a week.

The Woman's Relief Corps will  
meet on Tuesday, Nov. 15 with Mrs.  
Polhemus, 7217 Fountain street. Sew-  
ing.

There will be an entertainment at  
the Papkin School District No. 7, Ann  
Arbor, Friday evening, Nov. 18. Ad-  
mission 10 cents.

The Ladies' Musical club will meet  
with their president, Mrs. Babcock,  
Thursday evening. The meeting will  
be devoted to the study of Indian  
music.

The Academy orchestra have 83  
engagements booked to fill between  
now and June 17, and of course will  
book several more between now and  
the close of the school year.

There are seven distinct depart-  
ments, each with its own dean, at the  
University of Michigan. A women's  
dean in the literary department is al-  
so a member of the faculty.

There will be a mass meeting for  
the organization of the vocal depart-  
ment Monday afternoon at 5 o'clock  
in the Frieze Memorial Hall for the  
election of officers for that depart-  
ment.

Today Miss Emma Bower paid  
\$1,000 to Mrs. Florence Pomery Raab  
and Mrs. Margery Pomery, the amount  
of life insurance carried by their  
mother, who was a member of Adrian  
Hive.

The night school at the new Y. M.  
C. building opened with a good attend-  
ance of both teachers and pupils and  
all indications are that more and bet-  
ter work will be accomplished than  
even in the past successful years.

come with the Cleveland Ladies' or-  
chestra, on Y. C. A. Star course, next  
Friday, Nov. 18, in the greatest lady  
trumpetist in America. The company  
has a cornet soloist, a violin soloist  
and a soprano soloist of unusual  
merit.

There will be a recital of the pupils  
of Professors Howland and Lockwood  
Wednesday afternoon at the School of  
Music at 4:30 o'clock. Those who take  
part are the Ladies' Cecilian quartet,  
Miss Topping, Miss Knaegel, Miss  
Stims, Fred Daley and Fred Killen.

One hundred and ninety-two cou-  
ples danced at Granger's Academy  
Saturday night. With the exception  
of two or three couples all were good  
dancers, and being ladies and gentle-  
men, recognized the rights of others,  
therefore there was no crowding.

The music was excellent and every-  
body had a good time. The second of  
a series of leap year parties will take  
place at th Academy tonight.

The Sigma Nu House on Oakland  
avenue was the scene of a pretty  
house party Saturday evening. A  
large number of guests were enter-  
tained at the house during the ban-  
quet and game and the party was  
given in their honor. A program of  
dances was played by the Chequame-  
gon orchestra.

The Varsity Detroit club held a re-  
union in the city Friday, Saturday  
and Sunday. A banquet was held Fri-  
day evening. They attended the game  
in body Saturday afternoon and  
dined at Granger's in the evening,  
following this amusement, with re-  
freshments at the home of Miss  
Louise Hunt. Sunday night they made  
up a tally-ho party and rode about the  
city.

The Ladies' Thimble club of the A.  
M. E. church will give a fair and din-  
ner at the A. M. E. church on North  
Fourth avenue. Fair to commence  
November 15 and continue four days.  
Dinner will be served at 6 o'clock.  
Dinner for Wednesday, Nov. 16, will  
be roast pig, fricassee of chicken,  
sweet potatoes, apple sauce, corn beef

The clinical work of the eighth an-  
nual post-graduate and practitioners'  
course of the homeopathic college,  
University of Michigan, began this af-  
ternoon with a gynecological clinic  
by Dr. Kinyon. Tomorrow morning  
at 9 o'clock a surgical clinic will be  
conducted by Prof. Smith and at 2 p.  
m. the eye and ear clinic by Prof.  
Copeland. All the clinics and lectures  
are free to physicians and students in  
medicine. The hospital have always  
afforded an abundance of material for  
these courses. Usually a second week  
of constant clinical work has been  
necessitated to dispose of the overflow.

The Woman's League of the School  
of Music is no longer a plan for the  
future but is an avowed fact. A most  
enthusiastic meeting was held Friday  
night at the hall at the school and  
officers were elected and committees  
appointed. Rooms are to be furnished  
for the use of the League and much  
in the way of social matters is plan-  
ned for the coming year. The fol-  
lowing list of officers were elected.

moters of the movement are much  
pleased with the unanimous feeling  
of interest shown by the School of  
Music women and feel that it proves  
the successful future of the League.

## ALASKA IS EQUIPPED

Telegraph System Unique Engineering Feat

### THE SERVICE

Kept up by Dog Teams and Men—Gen. Greely's Interesting Report

Washington, Nov. 14.—Gen. A. W. Greely, chief signal officer of the United States army, in his annual report gives an interesting account of the work performed by his corps in establishing an all-American telegraphic system in Alaska, saying the undertaking is unique in the annals of telegraphic engineering.

The cables used in the Alaskan system would reach from Newfoundland to Ireland and the land lines from Washington to Texas, there being 9,079 miles of cables, 1,439 miles of land lines and 107 miles of wireless lines. Gen. Greely says the United States has brought southeastern Alaska, the Yukon valley and the Behring Straits region into telegraphic communication with the rest of the civilized world. He also says a selected force of men has been so trained that today the signal corps of the army is competent to operate in war emergency a submarine cable of any length.

"Repairs in Alaska are maintained," the report continues, "by parties stationed at log cabins about forty miles apart, one signal corps repair man with two assistants from the line of the army and a dog team being at each cabin. The men meet the terrible condition of hardship and privation uncomplainingly and with a fortitude characteristic of the American soldier. The signal corps of the army, he says, is now regularly operating the longest wireless section of any commercial telegraph system of the world. The annual business of the Seattle-Sitka cable is estimated at \$25,000 and during the year there has been spent \$56,935 for the Alaskan telegraphic system handled by the signal corps. Speaking of the Philippines he says the sixteen most important islands of the archipelago are now connected by cable, which lines, he adds, are recognized as indispensable.

### WIRES ALL DOWN.

Eastern Cities Seriously Affected by Sunday's Storm.

New York, Nov. 14.—New York was entirely cut off from the south and west last night by a fierce hurricane, accompanied by rain and snow, which is sweeping the Atlantic coast.

Starting from Florida Saturday night, the wind and rain has come up the coast at almost cyclonic speed. Early Sunday morning it was central off Cape Hatteras, although its ever-gathering force was felt far to the northward. Rain began falling in New York at 5 a. m. and early in the morning changed to a wet snow.

Wire service out of New York is tied up more effectively than at any other time since the blizzard of '88. The Western Union and Postal Telegraph companies have no direct communication with cities further south than Baltimore, and all western points are cut off.

Philadelphia, Nov. 14.—The southern storm, which began here about 5 a. m. Sunday, seriously interfered with telegraph and telephone communication in this vicinity. The telegraph companies report wires down in nearly all directions excepting in New York and Baltimore.

Washington, Nov. 14.—As the result of a snowstorm which set in here shortly before 11 o'clock Sunday morning, Washington last night for several hours was completely cut off from telegraphic and telephonic communication with the outside world. Later a wire was obtained west, but none east, north or south. The snowfall was the first of the season, several inches covering the ground.

### Fought With Outlaws.

Salt Lake City, Nov. 14.—One outlaw is dead and another is in jail mortally wounded as the result of a desperate battle between cattle thieves and officers near Deeth, Nev. Sheriff Clarke and his deputy, of Elko county, caught James McKelvey and Charles Winslow in the act of skinning a steer of the Graham brand. When called upon to surrender they dropped behind the carcass of the animal and began firing at the officers. The latter sought shelter and for twenty minutes a duel continued. Finally McKelvey sprang to his feet and fired. The shot was returned and McKelvey fell dead. A few minutes later Winslow surrendered and was found to be mortally wounded.

### Prominent Lawyer Hanged Himself.

Marietta, O., Nov. 14.—The body of Thomas Ewart, a prominent lawyer of this county and well-known in Masonic circles throughout Ohio, was found hanging from the baluster of the stairs in the reception hall of his fine home here Sunday when the family returned from church. Ewart was 58 years old and a graduate of Marietta college. Poor health is supposed to have been the cause of the act of self-destruction.

### IN LOVING EMBRACE

Two Sisters Died Together Because Poverty-Stricken.

New York, Nov. 14.—Locked in each other's arms on the bare floor of a dismantled flat in East Fifty-first street, from which they had been dispossessed on Friday, two sisters, Louise and Valerie Abel, 44 and 38 years old respectively, were found dead Sunday. In the mouth of each was a rubber tube which connected with the chandelier.

In the hand of the younger woman was an open letter, written in German, which stated that the sisters had decided to die together after talking over the matter for a week, and requesting that they be buried in one grave. "For this consideration," the letter continued, "we give our bodies for the benefit of medical science." The two women had failed to pay the rent of the flat they occupied and on Friday they were dispossessed. At the same time their furniture, which they had bought from an installment company, had been taken from them, and they had been given permission by the janitor to remain in the flat over Sunday.

### FOR TWO WEEKS

The American Federation of Labor Will Hold Sessions.

San Francisco, Nov. 14.—The American Federation of Labor began a two weeks' session in this city today.

The session will be open to the public except on the last two days when the officers will be elected. The first train from Chicago, bearing President Gompers and the members of the executive council, arrived late Sunday. In speaking of the convention, W. D. Mahon of Detroit, president of the Amalgamated Street Railway Employees, said that the labor outlook was decidedly hopeful and that this would be one of the busiest sessions in the history of the federation.

Mr. Mahon spoke in very decided terms against the introduction of politics into the federation.

### Czar and Kaiser to Meet.

Berlin, Nov. 14.—Despite the denials, both official and unofficial, of the report that a meeting has been arranged between the Kaiser and the czar, assurance is given that the two monarchs will meet in the near future and that they will discuss in a most serious manner the situation in the far east. The general belief here is that the Kaiser will urge on the Russian monarch the advisability of consenting to mediation with a view to bringing about peace, provided that terms can be made which will not be too humiliating to Russia.

### Attempted to Kill Mayor.

Virginia, Minn., Nov. 14.—A terrific explosion occurred in the rear of the residence of Mayor Fay early Sunday, and the handsome building is a mass of ruins. No one was injured. Apparently dynamite was placed in the rear of the house with the intention of killing the mayor as well as wrecking his dwelling. For some time past the mayor has been waging a vigorous warfare upon the violators of the saloon law, and many threats have been made against him.

### Eleven Persons Killed.

Salt Lake City, Utah, Nov. 14.—Eleven persons were killed and ten or fifteen injured in a head-on collision Saturday between Union Pacific west-bound passenger train No. 3 and an eastbound extra freight train one and a half miles east of Azusa, Wyo., on the Oregon Short Line.

## JAP PRINCE FUSHIMI

Stops in Chicago on Way to Washington

### DOUBLE PURPOSE

Of His Visit to America—Will be Entertained at the Capitol

Chicago, Nov. 14.—Prince Fushimi, member of the Japanese royal household and special representative of the Mikado, accompanied by three of his countrymen and a retinue of servants, arrived in Chicago Sunday on the Chicago & Northwestern railway on his way to Washington to call on President Roosevelt and to visit the capitol and government offices. On arrival in Chicago the party was taken in charge by the Japanese consul, who looked after the entertainment of the visitors until last night at 6 o'clock, when they left for the east over the Pennsylvania road.

Washington, Nov. 14.—His Imperial Highness, Prince Sadanaru Fushimi, who is on his way to Washington from Japan, visits this country by order of the emperor with a double purpose. First to deliver to the president of the United States a special message of

LIEUTENANT GENERAL PRINCE FUSHIMI.

good will from the emperor of Japan, and second, to visit the world's fair at St. Louis, where Japan has a large exhibit.

While in Washington the president has designated Mr. Pearce, third assistant secretary of state, as his personal representative to attend upon the prince and arrange for his entertainment. Mr. Pearce will be assisted by Col. Symons, and already several functions have been planned, including a dinner at the White House, a visit to the capitol and congressional library, a lunch by the secretary of state, a reception by the prince to the gentlemen of the diplomatic corps at the Arlington hotel, a trip to Mount Vernon and a dinner by the Japanese legation.

From Washington the prince will go to the world's fair, where preparations for his reception are being made by the fair authorities and the Japanese commissioners. He will assume his official character only in Washington and St. Louis, and thereafter will travel in cognate to New York, Boston, Philadelphia and Chicago. He may also visit other large cities, but as he will sail from San Francisco on the Mongolia on Dec. 28, his stay in this country is necessarily much restricted.

The prince is essentially a soldier and has followed that profession from early boyhood and distinguished himself in the China-Japan war of 1894 and in the early stages of the present war with Russia.

### ADOLPH WEBER ARRESTED.

Charged With Murder of His Parents, Sister and Brother.

Auburn, Cal., Nov. 14.—Adolph Weber has been placed under arrest charged with the murder of his parents, sister and brother last Thursday night and with having set the family residence on fire afterward to conceal the crime.

Weber took his arrest coolly but was alert to what he considered to be his legal rights. The arrest took place immediately after he left the witness stand and after he reluctantly answered the questions pronounced to him by Coroner Shepard, the district attorney, and several jurymen at the inquest over the bodies.

### Wanted on Bigamy Charge.

Laporte, Ind., Nov. 14.—John F. Turner, who claims residence in Grand Rapids, Mich., and was arrested at Michigan City and sent to the county jail on a charge of larceny, is wanted at Quincy, Ill., for bigamy. Turner came to Michigan City from Grand Rapids. He cultivated the acquaintance of Miss Little, an estimable young woman, and married her. With the arrest of Turner on a larceny charge an investigation was made of his record, with the result of finding another wife at Quincy, Ill. The larceny charge will be dismissed and Turner prosecuted for bigamy.

### Tug Sunk; Captain Drowned.

Cleveland, Nov. 14.—The large tug John Gregory was caught in a heavy windstorm near the mouth of the Cuyahoga river, in this city, last night and sunk. Capt. Dell Minney was drowned and three members of the crew were rescued by the life-saving crew. The tug was valued at \$20,000.

### A PENSION SYSTEM.

Michigan Central Employees Hope to Found One.

Jackson, Mich., Nov. 14.—An effort is being made in this city to establish a general pension system for Michigan Central railway employees, and Sunday afternoon a mass meeting of all classes of railroad workers was held for the purpose of deciding upon what course to take in the formation of the new system. It was learned that the officials of the road are willing to meet the men half way and delegates will be chosen from all organized branches of the employees to meet with the officers and lay plans in the near future. It is thought the system to be adopted will be for the men to pay a pro rata amount according to the wages they receive and the pensions will be graded along the same basis. It is understood that General Manager L'Hon-medieu of Detroit wants the unorganized men to share in the general pension system and steps will be taken to let them have a representation in the meeting to consider plans. Mr. Snow, superintendent of the central division, was present at the mass meeting and made an unofficial address to the men.

### CLIMBED INTO BOILER.

Steam Turned on and He Was Fatally Scalded.

Detroit, Mich., Nov. 14.—Charles Kipbut, aged 60, 202 Morrell street, was fatally scalded while at work on a boiler at the American Car & Foundry Co. Sunday. He was taken to Grace hospital, where he died.

Kipbut, who was a water tender, went to the shop yesterday to clean the boilers preparatory to the work of Monday. He climbed in the boiler and was busily at work when in some manner the steam cocks were opened and the boiler flooded with steam. Before the unfortunate man could climb out he was terribly burned.

### Monroe Man Hurt in Wreck.

St. Louis, Nov. 14.—A north bound Webash passenger train was partially wrecked Sunday in the outskirts of North St. Louis on a sharp curve of the belt line tracks of the Merchants Terminal Railway association, near the west approach of the Merchants' bridge over the Mississippi, injuring fourteen persons. The accident was caused by the wheels of the tender leaving the rails on the curve. Among those injured were E. J. Birdsey of Silver Creek, N. Y., bruised; John Aeschelman of Monroe, Mich., hand broken, and Mrs. Alma Price of Washington, D. C., sprains.

### SNAKE RIVER VALLEY.

The largest irrigation enterprise in America is located in the rich Snake River valley of Idaho which has been reclaimed through man's hand-work alone. In this valley which is now comfortably settled, there remains 270,000 acres of land belonging to the state of Idaho which is under the Twin Falls irrigation canals and open to settlement. This land is among the richest in America as experiments have proved. Potatoes here yield 200 to 400 bushels to the acre of large size and fine variety. Wheat yields from 40 to 70 bushels to the acre with an average weight of 63 pounds per bushel. Three crops of alfalfa are raised each season in the Snake River valley. The climate is superb and of great value as a tonic for mind and body. Home-seekers' low rates to the Snake River valley are in effect via Union Pacific, the only direct route. Why not visit this district in person and fully realize its great possibilities? For full information address, F. B. Choate, G. A., 126 Woodward avenue, Detroit, Mich.

Hold-Up Men Getting in Work  
in Detroit

## FIVE ROBBERIES

Have Taken Place in Three Days—  
Police Have Description  
of Men

Detroit, Mich., Nov. 14.—A reign of terror, similar to the one the city experienced some months ago by hold-up men, seems to be again the city's fate. Three hold-ups were committed Saturday night and one Sunday night, and appear from the description to have been perpetrated by the same two men who were responsible for those of Friday night.

In the first instance the men entered the shoe store of Emil Knorr at 479 Baker street, and at the point of a revolver secured \$14 and a watch. The second hold-up occurred over an hour later, and although not far from the first the robbery was attempted by but one man. While Mrs. Margaret Chambers was passing along Beecher street she was accosted by a man in front of a residence near Baker street, who was frightened away before securing her purse.

At 10:30 two men entered the saloon conducted at 77 St. Antoine street by Aaron Eisenstark, and without producing weapons rifled the cash drawer, which contained but 25 cents.

The men who have committed all of the hold-ups are described in every instance as being a tall man and a shorter one. The taller wears a long black coat and a derby hat, while the shorter has scars on his face, wears a soft hat or a cap and a short light or gray coat.

The highwaymen were at work last night, paying another visit to Baker street. This time it was Alonzo Hock's saloon, at 382 Baker street, where the proprietor was relieved of \$42 at the muzzles of two guns. From the descriptions given by the saloonkeeper, the men were apparently the same as have been playing the hold-up game for the past two or three nights.

**To Investigate Coroners' Affairs.**  
Detroit, Mich., Nov. 14.—In connection with the investigation of the Wayne county coroner's office, started some days ago, an examination of the records of inquests held by the coroners discloses an astonishing condition of affairs to exist in connection with what are known as "state" cases. So startling are the facts that Deputy Attorney-General Chase has been instructed by Gov. Bliss to make a thorough probing of the alleged collection of illegal fees from the state by Coroner Hoffmann and Coroner Toepel. So far as can be found, there have been no "fake" inquests held, but advantage has been taken to make state cases out of as many deaths as possible in order to collect additional fees.

**Gaylord Electric Plant Burns.**  
Gaylord, Mich., Nov. 14.—The electric plant here has been gutted by fire as a result of a defective wiring, and the town will be without lights for some time. Almost every house in town has been lighted by electricity and lamps and candles are now at a premium.

**Home For the Blind.**  
Saginaw, Mich., Nov. 14.—The Michigan Employment Institution for the Blind here will be dedicated on Dec. 22. The object of the institution is to afford satisfactory occupation for all blind persons of the state who feel the need of such assistance. The superintendent, J. Perrine Hamilton, wishes the names and addresses of all blind persons in the state.

**Many Hunters; Few Deer.**  
Houghton, Mich., Nov. 14.—County Clerk Martin Voetsch has issued 400 deer licenses and the rush still continues. The total number issued last year was 442. At present it looks as if there will be an increase this year. Very little venison has been brought in as yet. A hunter who returned last night says deer are not as plentiful as reported.

**Shredder Mangled His Arm.**  
Niles, Mich., Nov. 14.—While Pierce Cauffmann, a prominent pioneer farmer, was operating a corn shredder, his right arm caught in the machine and was so badly lacerated that the doctors have amputated it near the shoulder. Cauffmann's condition is serious.

**Fell From Twenty-Foot Scaffold.**  
Bay City, Mich., Nov. 14.—Joseph Morin, a laborer, fell a distance of twenty feet at Bay City as the result of the giving way of a scaffold at the new Holy Rosary academy. He was taken to Mercy hospital and his condition is critical.

**Dropped Dead at Charlotte.**  
Charlotte, Mich., Nov. 14.—J. M. McCartney, aged 73 years, dropped dead at his home in this city Saturday night while on a stairway with a lighter lamp. The lamp was smashed and the house was set on fire, but the blaze was put out before any damage was done.

### JACKSON BOYS GIVE UP.

Men Who Caused Terror in West Virginia Town Caught.

Charleston, W. Va., Nov. 14.—Edward and George Jackson, the two brothers of Montgomery for whom rewards have been offered by both state and county officers, surrendered Sunday and are now in jail at Charleston. The men had been secreted in an abandoned coal mine just outside Montgomery and were driven to surrender by hunger and cold. Word was sent to Montgomery by a mountaineer and on arrival of Squire Davis and a constable the men gave themselves up without a struggle.

Since the shooting of Sheriff Daniel Thursday and their subsequent disappearance, the men spent the time in the coal mine secreted from their pursuers and bloodhounds that were put on their track. During this time they were without food and drink. The officials took the men around the town of Montgomery, and by a roundabout way brought the prisoners to Charleston to avoid a riot or lynching, which would have evidently occurred had the citizens of Montgomery discovered that the Jackson brothers had been apprehended.

There are now six prisoners implicated in the Montgomery shootings in the Charleston jail. It is not considered safe to hold the hearing of any of them at the present time.

### TWICE REPULSED.

Russians Meet More Reverses, According to Jap Reports.

Tokio, Nov. 14.—The Manchurian army headquarters, telegraphing Sunday, says: "In the direction of the left army the enemy attacked from Wuchentse Nov. 11 at 12:20 o'clock in the morning. They were repulsed. On Nov. 9 200 infantry and 300 cavalry appeared in the direction of Siazaiton. Our force stationed there repulsed them. The Russians retreated to Manchuria. The Russian losses were sixty. Ours were six."

### Secretary Hay's Brother Is Dead.

Washington, Nov. 14.—Secretary of State Hay has received a dispatch announcing the death of his brother, Major Leonard Hay, U. S. A., retired, in the 70th year of his age. He died at the Hay homestead in Warsaw, Ill. The late major Hay was the head of the family in this country. A prominent official here said that he was an officer of great intelligence and efficiency and since his retirement had been one of the most public-spirited citizens of Illinois. Secretary Hay will attend the funeral.

### Waring Against Swindlers.

Chicago, Nov. 14.—Austro-Hungarian Consul Nuber of Chicago has warned the police and United States secret service agents here, by order of his government, to watch for two clever swindlers who have operated extensively in Europe and are said to be now on the way to this city. The men are alleged to have victimized banks and wealthy business men of Vienna through the use of bogus American bank securities. The pair are said to have posed as secret agents of the Japanese government for the purchase of army horses.

### Tried to Cut Off Baby's Head.

Appleton, Wis., Nov. 14.—Two little sons of Mrs. William Krausch of Center have tried to cut their baby sister's head off after seeing their mother cut off the heads of several chickens. The little fellows placed the baby's head on a block and the eldest boy lifted an ax and struck at the infant's neck. He went wide of the mark and as he raised the ax to strike a second time he was stopped by a farmer who happened to drive by and saw what the children were doing.

### Take Liberty Bell Home.

St. Louis, Nov. 14.—The committee of the select and common councils of Philadelphia arrived Sunday over the Vandallia road to escort back to its resting place in Philadelphia the old Liberty bell which has been on exhibition in the Pennsylvania building rounda at the exposition. On Wednesday exercises will be conducted in the nature of a farewell to the old bell and it will start on its homeward journey.

Mrs. Martin, Detroit, Mich., used 72 bottles of a much advertised remedy and failed to cure her terrible case of rheumatism, but the first bottle of Dr. Caldwell's Magic Egyptian Oil brought relief and quick cure. All druggists. Satisfaction guaranteed or money refunded.

### Counterfeit Coin Afloat.

Bay City, Mich., Nov. 14.—Considerable counterfeit coin has been circulating throughout the Saginaw valley, and Secret Service Agent Gallagher of Chicago has been here working to discover the case. Albert Gehringer, a farmer, is now under arrest charged, with passing spurious coin, and other arrests are expected. Only a light bond of \$200 was required of Gehringer and he furnished it for appearance before a United States commissioner.

### Boy Shot by Unknown Person.

Lansing, Mich., Nov. 14.—Walter Folger, a 17-year-old lad, was shot and almost instantly killed by some unknown person while walking on the track of the Lansing Suburban Co., a short distance north of the city. The bullet was from a 22-caliber rifle and struck young Folger in the temple. He fell to the ground, exclaiming: "I've been shot," and died in the arms of his companions a few minutes later.

## THE BIG TREES.

A Wondrous and Awe-Inspiring Product of Nature, Found only in California.

California's attractions are mostly of its own kind, peculiar to the state, and of none is this so emphatically true as that unique product of the Big Trees. The age of these colossi is from 1,500 to 2,000 years. The Mariposa Grove, which can be visited while en route to the Yosemite, contains some of the largest. In the Calaveras Grove are from ninety to one hundred of huge size. Near Santa Cruz is a beautiful grove of redwood Big Trees which will well employ a day's visit. These can be best reached by the Union Pacific whose fast trains from Missouri reach California 16 hours ahead of all competitors.

Pamphlets and maps describing the wonders of California, and full information about the most comfortable and direct route to the Pacific Coast, can be obtained of

## The Want Column of the Daily Argus

It reaches an army of readers in both city and country. It covers all the villages in this section of the state. If you have anything to sell or trade, it will help you dispose of it. If you have lost anything, it will help you find it. If you have found something of value, it will aid you in discovering the owner. If you have a house or farm to rent, try a liner in THE DAILY ARGUS. Some one in its army of readers will see it and respond.

It will pay you to try it. It is the cheapest kind of advertising—25 cents for 25 words or less, three times. No ad taken for less than twenty-five cents.

## NERVOUS DEBILITY.

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

NO NAMES USED WITHOUT WRITTEN CONSENT.

### THREATENED WITH PARALYSIS.

Peter D. Summers, of Kalamazoo, Mich., relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indigestion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for BEFORE TREATMENT baths, but received little benefit. While AFTER TREATMENT at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY. We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

**Mr. and Mrs. William Richardson**  
of Detroit were the guests of Mr. and Mrs. Clarence Bray over Sunday.

**The Thanksgiving service this year**  
will be at Presbyterian church and Rev. A. J. Beach will preach the sermon.

**Harris Howard of Detroit attended**  
the U. of M.-Chicago game at Ann Arbor and visited his cousin, Burwell McGregor, on his way home.

**Mr. and Mrs. Frank Holmes of**  
Alpena and their son, who is attending the U. of M., were the guests of Mr. and Mrs. G. M. Gaumdy over Sunday.

**Mr. and Mrs. Clarence Bray expect**  
to leave Wednesday for their new home at Hudson, where Mr. Bray will become partner in the firm with Charles Brown, formerly of this city.

**The Arm of Honor of the Normal**  
gave a dancing party at the Maccaabee hall Saturday evening. Prof. and Mrs. B. L. D'Ooge chaperoned the party and about 22 couples were present.

**Rev. Pruden, a member of the state**  
Sunday school board, occupied the Baptist pulpit Sunday morning and gave an excellent talk on the Sunday school work. He also gave a talk before the teachers and officers at 4 o'clock in the afternoon.

**The Lincoln club of the Normal**  
debated on the question, "That Labor Unions increase the cost of living." The Webster club on the question, "That the Young Man of Today has Better Opportunities, Financially, than His Forefathers," and the Portia club "That During Times of Depression Municipalities Should Give Work to the Unemployed."

**Scores of Ypsilanti's went to Ann**  
Arbor Saturday to witness the big championship game, but scores more of enthusiasts remained in Ypsilanti. Perhaps this can be accounted for by the fact that continuous reports of the game were given the Washenaw Home Telephone company at the Occidental Hotel. The hotel was packed to overflowing, and the enthusiasm was very high at all times. Some who were there said it was almost as good as being an eye-witness of the game, so complete and clear were the reports.

**The little folks love Dr. Wood's**  
Norway Pine Syrup. Pleasant to take; perfectly harmless. Positive cure for coughs, colds, bronchitis, asthma.

## BATTLE ROYAL WEDNESDAY

**Victorious High School Team vs. Normals**

**High School Team Has Scored**  
**7 Decisive Victories**  
**to Date**

**There will be a big football battle**  
on the Normal campus Wednesday afternoon, when the undefeated High school eleven will line up against the Normal team. Usually the Normals are the stronger but this year the record of the High school seems to tell a different story. Saturday's victory over Mr. Clemens was preceded by seven other decisive triumphs for the High school this year. The team has rolled up 130 points, while opposing teams have but one touchdown to their credit. Adrian made that touchdown, but in that game Ypsi scored 15 points.

**Two more games for the High**  
school are scheduled for this season, and both are out of town. Adrian will bite the dust again next Saturday at Adrian, and Lansing will meet the Ypsi invincibles on her home grounds Thanksgiving time.

## DOESN'T RESPECT OLD AGE.

**It's shameful when youth fails to**  
show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation, all yield to this perfect pill. 25c at A. E. Munnery's and H. F. Miller's drug stores.

## Look Back and See What You Lost.

**Just look back over the day and see**  
where your energy has gone. See how much of it has leaked away from you in trifles. Perhaps you have wasted it in fits of fretting, fuming, grumbling, fault finding or in the little frictions that have accomplished nothing, but merely rasper your nerves, made you irritable, crippled you and left you exhausted. You may have drained off more nerve and brain force in a burst of passion than you have expended in doing your real work. Perhaps you did not realize that in going through your place of business like a mad bull through a china shop you pulled out every spigot and turned on every faucet of your mental and physical reservoir and left them open until all the energy you had stored up during the night had run off. Look back and see whether your scolding, fault finding, criticising, nagging and what you call "reading the riot act" to your employees have helped you in any way or accomplished anything. No; you only lost your energy and self control, your self respect and the respect and admiration of your employees.—Orison Swett Marden in Success.

## EQUIVALENCE IN NATURE.

**"To Every Action There is an Equal and Opposite Reaction."**

**We shall search in vain for any**  
demonstrated truth concerning the system of nature, for any law, rule or axiom of physics which does not rest fundamentally upon the equivalence of action and reaction, of cause and effect. "The straight line joining the sun and planet must pass over equal areas in equal times," is Kepler's law. "At any point in a fluid at rest the pressure is equal in all directions," is Pascal's principle. "A body immersed in a fluid is buoyed up by a force equal to the weight of the fluid displaced," is the principle of Archimedes. The angles of incidence and reflection are in the same plane and are equal, is the law of reflection. "The reciprocal of the principal focal length is equal to the sum of the reciprocals of any two conjugate focal lengths," is the law of converging lenses. "The current is equal to the electro motive force divided by the resistance," is Ohm's law. "The disappearance of a definite amount of mechanical energy is accompanied by the production of an equivalent amount of heat," is Joule's principle. Observe how perfectly these and the other principles and laws of physics agree with Newton's law of motion, "To every action there is an equal and opposite reaction."

**The universality of equivalence is**  
broadly expressed in the law of the conservation of energy. When one form of energy disappears, its exact equivalent in another form always takes its place. This law, accepted by modern science, leaves no ground for the assumption that there can be a failure of equivalence in motion or transformation.

**Can we say that the equivalents**  
which return persistently in motion and transformation are compensatory? Yes; the return of an exact equivalent is exact compensation. Heat is the compensation for the fuel that produces it, electricity is the compensation for the energy that is transformed into it, one molecule of water is the compensation for two atoms of hydrogen and one atom of oxygen. A definite amount of matter or force pays for exactly the same amount in another form. That which disappears and that which succeeds are mutual compensations. Fuel pays for heat, and heat pays for fuel. The account balances perfectly. Nature has no profit and loss account, no bad debts, no failures in compensation.

**The assumption that anything can**  
exist in the physical world without exact compensation appeals to the scorn alike of science and of common sense. Our patent office in Washington refuses to consider devices to produce perpetual motion, not because that office would place an arbitrary limit on the possibilities of mechanical invention, but because effect without cause, power without compensation, is impossible.

**We shall be justified in the**  
conclusion that the principle of balance presides over the processes of nature in the small as well as in the large—alike in atoms, satellites and suns—and that every transformation of matter and force, great or insignificant, includes the return of exact equivalents and compensation.—From "Balance: The Fundamental Verity," by Orlando J. Smith.

## The Modern Courtier.

**The duties of an "equerry in waiting,"**  
put as concisely as possible, are: To make his royal master's life as smooth and easy as possible, to be discreetly sympathetic with him in sorrow and in joy, to save him so far as it is humanly possible from the trouble of thinking for himself, to know and have committed to memory the characteristics and family history of all persons who are worth the notice or friendship of the royal patron, to have ready at finger tips the truth of all scandals and gossip in the elect circle in which he moves and to be in a quiet and gentlemanly manner surprised at nothing.

**It has been said that an equerry**  
must not look bored, yet a casual scrutiny of the faces of those who have been long in office betrays the fact that nature, after all, asserts her power over artificiality, however hard the striving may be to circumvent her. One of the most surprising facts regarding royal persons is that apparently they never tire of the one particular set who surround them at home and whom they ask to meet them abroad. Royalties choose whom they will receive and whom they will meet. Possibly their attendants are of a more unstable mind and weary of the same old faces which they "once knew young; hence the faded, weary look so often observable as a settled mask on the countenance of the courtier.—Chambers' Journal.

## Birds at Close Range.

**Birds will come into your yard if you**  
encourage them. Place an ordinary starch box at such an angle that it will have a slope to the roof in a tree or on a post high enough to be out of the reach of cats, and it will soon have a tenant. See that there is a little bathtub near at hand for them. It may be sunk in the ground and may be partly filled with stones so the birds can light upon them if there are no cats around. If there are you will have to put the bathtub on a stake. Birds will eat almost any kind of seeds or berries that grow on shrub, tree or vine. If there are not enough of these, you can help out their menu by planting sunflowers and cornflowers in the garden.

**They will come about the house, too,**  
for crumbs, and you are sure to attract many of the feathered tribe if you put out in times of food scarcity a mixture made of cornmeal, pea meal and German moss, with enough molasses and melted lard to make a batter. Put it in dishes on shelves or porch roofs to see the birds gather about it.

## YPSILANTI THEATRE Monday, Nov. 21

**Third Annual Tour Presents FRANK L. PERLEY**  
**America's most gifted actress**

# ROSELLE KNOTT

## IN THE GREATEST COMEDY HIT OF NEW YORK and LONDON

# COUSIN KATE.

By Hubert Henry Davies with the Original Production  
as presented during its long and successful run at the

**Hudson Theatre, --- New York City**

Positively the best cast and most finished performance  
that will be offered this season.

**NOTE—Sale of seats will commence Saturday, Nov. 19th at Spalsbury's**  
Drug Store 9 o'clock. On account of the interest already manifested in the engagement of MISS KNOTT in "Cousin Kate" it has been decided that applications for seats sent to the box office before the opening of the sale will be filed in the order of their receipt.

## THINGS THEATRICAL.

**"Zaza" is one of the plays**  
to present in her American tour.

**"A Girl From Dixie,"** which  
continues to be on Sam S. Shubert's list of attractions, is now on tour.

**Effie Shannon has given official**  
notice of her intention to enter her two Italian greyhounds, Romeo and Juliet, in the forthcoming dog show at Madison Square Garden, New York.

**Marie Nichols has started on a**  
southern tour which includes Richmond, Asheville, Nashville, Chattanooga, Atlanta, Augusta, Memphis, New Orleans, Knoxville and San Antonio, Tex.

**"The Royal Chef" is being**  
advertised as appearing "with a menu of music." Rather novel, this, and a trifle more comprehensive than the average description of an operatic comedy.

**In order that the scenery of the**  
plays of his repertory may be kept as perfect as possible Richard Mansfield has engaged Origen Van Zandt, a scenic artist, to accompany him on tour and give his undivided attention to the productions of his repertory.

**The Oratoria society of New York**  
has begun rehearsals under Frank Damrosch's direction for the first concert to be held at Carnegie hall on Thursday evening, Dec. 1. The programme will comprise Brahms' "A German Requiem" and Bach's cantata "Sleepers, Wake!"

## GOWN GOSSIP.

**The separate coat will be quite a**  
special feature of the wardrobe this season.

**Many of the new coverts are**  
loose and long box coats, sometimes loosely belted, but oftener unbuttoned.

**The favorite fur this year seems to**  
be mink; after that chinchilla, ermine, fox, baum marten and the ever popular Persian lamb.

**The fashionable muff is the flat**  
pillow shape, and to accompany it are worn flat, short scarfs with chenille fringes finishing the ends.

**A number of fur lined coats, long**  
and half long, are seen. Squirrel is the usual lining, and there is generally a collar of better fur, such as mink, fox, chinchilla or Persian lamb.

**Broadtail velvet is in high favor**  
for separate coats. This material, being already crushed, will not wrinkle or crease. Its durability recommends it whether its appearance does or not.—New York Post.

## ARMY AND NAVY NOTES.

**There are now 39,849 men serving in**  
the United States navy.

**The ameer of Afghanistan has**  
selected a new uniform for his army, to be made out of the same cloth as is used for the Russian uniform. It is said that the soldiers will refuse to wear it.

**The British government is**  
experimenting with a new torpedo for destroying submarine mines. Its mechanism is such that, if it misses the mine it has been fired at, it sinks when it reaches its limit range.

## JINGLES AND JESTS.

### Wasted.

About her waist he put his arm.  
She did not scream, she did not shout  
Or tremble with a wild alarm—  
She didn't even seem put out.

She did not struggle or grow red,  
As one would naturally opine.  
Right here I think it might be said  
Her waist was hanging on the line.

### Happy, Though Married.

Aunt Jane—Really, now, do you believe there ever was an ideal marriage?

Uncle George—Sure. There were Jack Spratt and wife. At least at table each could be utterly selfish, you know.—Boston Transcript.

### Maybe He's Dead.

If Johnny comes marching home again,  
Hurrah! Hurrah!  
We'll be a lot of surprised ones then,  
Hurrah! Hurrah!  
His ma will cling to him and gush,  
For John was in a college rush.  
"Twill surprise us all  
If John ever marches home.

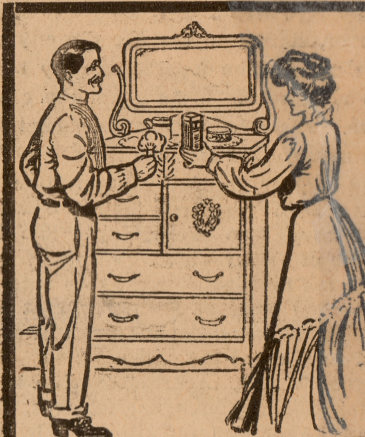

—Cleveland Leader.
